eutesfaye10@gmail.com

Addis Ababa, Ethiopia

I am a dedicated, fast learning and open to new skills. I enjoy solving problems and working on projects that challenge me. I also give programming tutorials to others in my free time. My internship here at Apposit will definitely be an amazing experience and an educating one if you are willing to give me the chance.

Education

- 3rd year Software Engineering student at Addis Ababa Science and Technology University (AASTU). Previous semester GPA = 3.9
- 12th grade School of Tomorrow (Matriculation result = 573)

Skills

- Python, JS , Java, C++, HTML, CSS
- Flask, React, Bootstrap Frameworks
- Git, Linux, DBMS (MySQL, SQLite)

Personal Experience

- Worked on group projects
- Team Leader

Projects

I have some projects on GitHub (link, <https://www.github.com/Eyu-Tes>). Here is a quick list:

- **flask-blog**
A blog post built with the Flask framework, that allows users to write and edit posts and also read posts by others.
- **Portfolio**
A simple webpage construct that shows my portfolio. Here is the link to my website (euprogtech.byethost17.com)
- **python-programs**
A collection of common python scripts.

I would like the internship period to be anywhere from July 2019 up to August 2019.
